HERMAN KAHN TO LECTURE ON "PROSPECTS FOR MANKIND"

1. Herman Kahn, Director of the Hudson Institute, will give a lecture to Agency personnel in the Auditorium on Tuesday, 1 May 1973, at 1000 hours. Mr. Kahn will speak on "The Prospects for Mankind."

2. Herman Kahn, mathematician, physicist and futurist was senior physicist and military analyst for the RAND Corporation from 1948 to 1961. In 1961 he established, with associates, the Hudson Institute, a non-profit, private research center devoted to the study of major problems affecting U.S. public policy, international development, defense and peacekeeping. He has played a key role in shaping strategic defense planning and his publications have had a profound impact on contemporary society. Among his books are On Thermonuclear War, Thinking About the Unthinkable, The Year 2000, Why ABM, The Emerging Japanese Superstate-Challenge and Response, and most recently (with B. Bruce Briggs) Things to Come: Thinking About the 70's and 80's.

3. Admittance will be by ticket, which can be obtained from Training Officers. Tickets have been allotted to the Directorates on a pro rata basis.
